

KATH'S PLAQUES

I J F DEVELOPMENTS LTD

KATH'S PLAQUES

I J F DEVELOPMENTS LTD., for over 24 years have been supplying construction/architects bespoke patterns for manufacturing GRP components using the latest CNC routing technology.

GRP Solidworks, Solidcam and CNC Design Package

Not only do we use the latest CAD software in all of our designs, we also offer a full CAM service via Solidcam so that all of our designs can be taken through to finished product on our state of the art CNC machine.

This allows us to offer our customers a complete package from an experienced, well established, reliable company.

I J F Developments Ltd. pride themselves on customer satisfaction and have now produced Bespoke CNC wood profiles, which can be plain or personalised with your beloved pets name(s), children's names/date of birth etc., using 12mm Plywood. IJF can also do exclusive designs to your needs, to discuss your needs please contact IJF on 01254 876505
